

COP 4934 – Summer 2026

Group 11

Meeting Agenda

Date: June 30, 2026

Time: 2:00 pm

1. Upcoming Due Date: Monday 7/6 – Preliminary Design Document
2. Quizzes Due Date: both due on Friday 7/3
3. Next Professor Check-In: Tuesday 7/21 3:20 pm
4. Class Schedule: Thursday 7/2, Tuesday 7/7, Thursday 7/9 (last lecture)
5. No-Lecture Weeks: 7/14 + 7/16; 7/28 + 7/30 (although the Final Design Report is due on Monday 7/27)
6. Sprint Review – Early Status Report
 - i. Review what was accomplished in the Sprint.
 - ii. What has changed?
 - iii. What to do next?
 - iv. Adjustments to the Product Backlog?
7. Sprint Retrospective – Early Status Report
 - i. What went well during the Sprint?
 - ii. What problems were encountered?
 - iii. How were the problems solved or not solved?
 - iv. Any changes that would make improvements?
8. Daily Scrum – created a Discord channel
 - i. **Inspect** progress toward the Sprint Goal.
 - ii. **Adapt** the Sprint Backlog as necessary, adjusting the upcoming planned work.
9. Sprint Backlog
 - i. Created by the developers.
10. Discuss historical data collection status.
11. (Andrew) GitHub protocol with Jira.
12. Use Jira for task updates.
13. Contract addenda items:
 - i. JC's new role
 - ii. Get permission before working on someone else's task.
14. Enable report feature in Jira (hopefully that will allow us to burndown reports, review old sprints, and view old sprint goals)
15. Document formatting: use headings, captions for tables and figures, and references
16. Discuss upcoming assignments (refer to table and assignment descriptions below).
 - i. Discuss upcoming Preliminary Design Document and outline
 - 10 pages per person

COP 4934 – Summer 2026

Group 11

Meeting Agenda

- Assignment Instructions:

“Submit a coherent document describing your group's work on the project thus far, in a form roughly tracking what you intend to contribute to the final design document.

The key to this assignment is simple: **Write about what you have done.**”

- What each team member intends to contribute during the project:

- Andrew: User workflow and general animation; DBSCAN
- Khoa: Front-End Mapping and UI
- Tolga: API +Database
- JC: Register User Statistics/Reports
- Phillip: Heat map (KDE/G_i*)

Table 1: Senior Design 1 - Assignments

Due Date	Assignment	Individual/ Group	Description
6/20/2026	Journal – Week 2	Individual	Individual weekly progress report
6/22/2026	Design Proposal and Team Contract	Group	See below for submission requirements
6/27/2026	Journal – Week 3	Individual	Individual weekly progress report
6/29/2026	Early Status Report	Group	See below for submission requirements
7/6/2026	Journal – Week 4	Individual	Individual weekly progress report
7/6/2026	Preliminary Design Document	Group	See below for submission requirements
7/11/2026	Journal – Week 5	Individual	Individual weekly progress report
7/18/2026	Journal – Week 6	Individual	Individual weekly progress report
7/25/2026	Journal – Week 7	Individual	Individual weekly progress report
7/27/2026	Final Design Document	Group	DISCUSS DURING FUTURE MEETING

- Preliminary Design Document
 - Content requirements (10 pages per team member [each team member to write 10 pages]):
 - Write about what you have done (less than 1 page per day).
 - 9 or 11 pages is ok, 5 or 15 isn't

COP 4934 – Summer 2026

Group 11

Meeting Agenda

- Can re-use text from the design proposal portion of the “Design Proposal and Team Contract”. Do not use text from individual motivation sections.
- Graphics are fine, but not large sparse graphics.
- Don’t include source code without good reason. Only use small chunks.
- No large amounts of white space for section breaks.
- Document does NOT have to be in its final form since the project will still need work done after this semester.
- Formatting requirements:
 - Same as “Design Proposal and Team Contract”
 - Reasonable standard written English mechanics (decent grammar and readability)
 - Graphics:
 - Should not be large.
 - Use numbered caption and word processor reference.
 - Quarter-page at most, with half-page reserved for very complex figures with a lot of information (if you’re not sure if it’s complex, then it’s not).
 - Don’t waste space on large logos (see size limits)
 - Submit as a PDF
